

Students have access to tutoring any day, any time with **Brainfuse**. If you have internet access, you can take advantage of this **FREE** resource.

Just log into your mySandburg page and click the Brainfuse logo—you will be automatically logged into your own Brainfuse account.

Once you're in, you can get **live, one-on-one help** from an expert tutor, upload your essay to the **Writing Lab**, quiz yourself with **SkillSurfer** practice tests, and more!

Live tutoring is available in most subjects 24/7; specialized topics such as nursing and accounting are available from noon to midnight.

- Nursing
- Statistics, business, and marketing
- Keyboarding and basic computer usage
- Study skills

$$3\frac{1}{2} = (\frac{13}{7})^3$$

Drop-in Sessions

The Tutoring Center, located in B72, is the place to go for help with all your core classes, from math and science to writing and general study skills. Tutoring is available primarily on a walk-in basis, though students can call ahead to schedule an appointment.

Tutoring sessions are casual interactions that are student-initiated, student-centered, and student-driven. Students get the most out of the Tutoring Center's services when they come prepared to work and well before an assignment is due. Students often come for clarification, extra practice, brainstorming and planning, or guidance on their homework. Tutoring is not a homework correction service; rather it should be seen as an educational opportunity.

Arranged Sessions

For some subjects, such as nursing and other healthcare-related fields, tutoring is offered primarily on a prearranged basis. Tutors may hold group sessions or arrange individual sessions as needed.

For more information about tutoring in your subject area, contact the Coordinator of Academic Support at 309.341.5262, or you may contact your instructor.
